Global Business Camps Business Analysis Software Installation Instructions

Use the following guide to install *Global Business Camps, Business Analysis Software* on your computer.

Before installing the software, please ensure the following is installed on your computer:

- Microsoft Windows 2000 or later, *and*
- Microsoft Excel 2000 or later

1. Open the following link to download the software:
http://users.tpg.com.au/dcol85/GBC_BASoftware.msi

Steps 2-4 may vary depending on the web browser you are using.

2. When prompted, click *Run* to start downloading the software:

3. The software should now download:

4. If the following security warning appears, click *Run*:

5. The Setup Wizard should now begin. Click *Next*.

6. Click *Next* again. If you are prompted with a message similar to: "Do you wish to allow a program to make changes to your computer?" Click *Yes*

7. When the installation is complete, click *Close*:

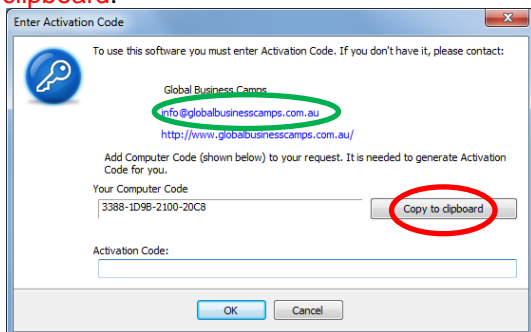

Global Business Camps Business Analysis Software Installation Instructions

8. Go back to your desktop and double click the *GBC Business Analysis Software* icon:

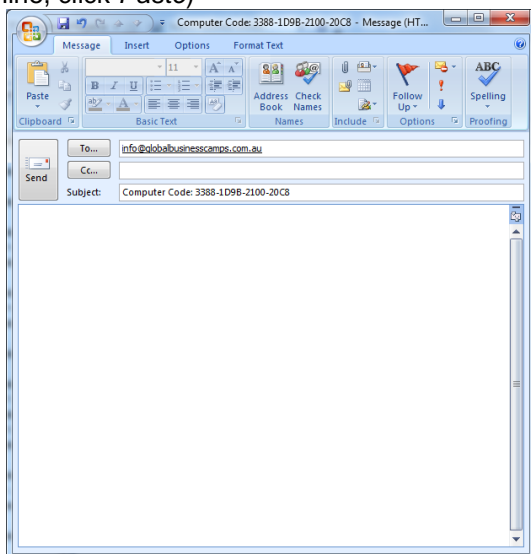

9. The first time you open the software, the following window will appear. Click **Copy to clipboard**.

10. Click the **email** link create a new email to info@globalbusinesscamps.com.au

If the link doesn't work, manually start an email to info@globalbusinesscamps.com.au

11. Paste your computer code into the subject line of the email (right click in the subject line, click *Paste*)

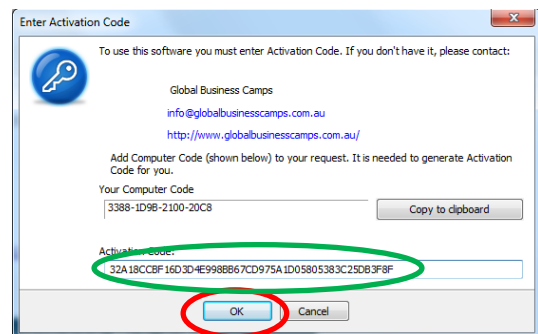

12. Send the email.

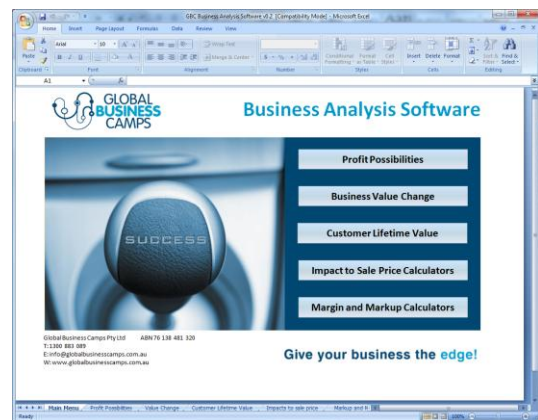

13. A Global Business Camps staff member will respond to your email with an activation code.

14. If you have closed the Activation Code window, reopen it now by repeating step 8.

15. Copy the activation code from the email into the **Activation Code** box.

16. Click **Ok**. You should receive a message confirming that the activation has been successful.

Your software is now ready to use. You can access the software any time using the icon on your desktop.

You can save any changes you make in the same way you would save a normal Excel document. However, it is not recommended to use the "Save As" function.
